EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>
Regular updates will be posted as they are available.

Comments: On August 5, an EPA team working to investigate and address contamination at the Gold King Mine in San Juan County, I have idea to get some of the toxic metals out of the river; which is using magnets to pull the metals out I hope this was helpful.
